

Job Portal

Project Report

Abstract

Finding jobs that best suits the interest and skill set is quite a challenging task for the job seekers. The difficulties arise from not having proper knowledge on the organization's objective, their work culture and current job openings. In addition, finding the right candidate with desired qualifications to fill their current job openings is an important task for the recruiters of any organization. Online Job Search Portals have certainly made job seeking convenient on both sides. Job Portal is the solution where recruiter as well as the job seeker meet aiming at fulfilling their individual requirement. They are the cheapest as well as the fastest source of communication reaching wide range of audience on just a single click irrespective of their geographical distance.

The web application “Job Search Portal” provides an easy and convenient search application for the job seekers to find their desired jobs and for the recruiters to find the right candidate. Job seekers from any background can search for the current job openings. Job seekers can register with the application and update their details and skill set. They can search for available jobs and apply to their desired positions. Android, being open source has already made its mark in the mobile application development. To make things handy, the user functionalities are developed as an Android application. Employer can register with the application and posts their current openings. They can view the Job applicants and can screen them according to the best fit. Users can provide a review about an organization and share their interview experience, which can be viewed by the Employers.

Objective

The purpose of developing an Online Job Search Portal comes from my idea to make the job search efficient and handy. It helps the recruiters as a primary source of talent search. It also helps the job seekers to search for current vacancies at a single point. Therefore, we can say that Online Job Search Portal act as a bridge of communication between organizations and applicants. With the evolution of technology and internet being the main source of information for the applicants, these job portals have become an excellent method to reach wide range of audience. Initially, when I am unaware of these portals, I used to do research about companies and their technology stack through their respective websites and apply if the job responsibilities matches my interests. This requires lots of effort and time. However, later when I realized the importance of job search portals, I am able to access jobs in companies, locations that I might not otherwise have learned.

Introduction

Job Search Portal is a web application, which serves jobseekers to find available job vacancies and Employers to identify eligible job seekers with the prospect of selecting the most qualified candidates. The only way to select best-qualified candidate is to have a pool of eligible applicants, which is possible by drawing the interest of individuals in the market. Job search portals best serve this purpose. E-recruitment has become the standard means for employers and job seekers to meet their respective objectives. The traditional methods for recruitment includes Job fairs, University career employment services, Employee referrals, advertising in the newspapers, televisions etc. With the advancement in technology and growth of internet usage, the e-recruitment has revolutionized the way organizations hire and candidates search for jobs. With the Online Job search portals, the recruitment process is speeded up at every stage from job postings, to receiving applications from candidates, interviewing process. The cost of searching/posting jobs will be much less compared to the traditional way of advertising. Job search portal stands as an effective means for Employers to outline the job vacancies, responsibilities and qualifications to attract jobseekers. Using the portal jobseekers can extensively search for jobs in companies, organizations and regions they may otherwise have not learnt. In addition, candidates/Employers can write a review about an organization, which might help them to change the way things are done.

Scope

As of Indian market, there is ample opportunities for the job portal sites, as more and more number of educated and skilled young people are coming out each and every year. Also, as the growth rate of India is zooming to be at a healthy rate over 7%, so it is boom time for corporate also. So, more and more number of lucrative careers will be available for the job seekers. So, it is now the right period for the job portal sites to think out of the box, and to make most of the opportunities available.

Methodology

The Web Information Systems Development Methodology (WISDM) is an ISD methodology, developed by Richard Vidgen, David Avison, Bob Wood and Trevor Wood-Harper (Vidgen 2002). This method adapted the traditional system development methods, web development technology and the hypermedia development methodology.[2] Hypermedia is a mix of rich texts, graphics, audio and video, and uses hyperlink to link to other pages and sections of an application. The main framework of WISDM is extracted from Multitier. Multitier is a methodology with user participative approach that includes many stakeholders like developers who are responsible for developing the Job Portal and users who are using the Job Portal. Therefore, Multitier focuses on both the human and technical aspects of Information System. The framework of the WISDM that helps in the development of a Web-based Information Systems considers two aspects: one relating to the organizations, people and technology; the other relating to the analysis and design. The WISDM mainly focuses on Organizational analysis, Information analysis, Technical design, Human computer interaction and Work design.[5] There is no prior ordering of the five aspects of the said method. Each method has been emphasized alone during the project development. Multitier frame work methodology of WISDM.

SYSTEM MODULES

JOB SEEKER MODULE

This module provides functionalities for the job seekers. Applicants can post their Personal as well as Professional details. They will be able to submit a resume which can be accessed by the recruiters for hiring purposes. Applicants can browse through the job vacancies available. Job Seekers will also get mail alerts when their profile gets selected by any Employer.

Facilities provided to Job Seeker:

1. A Job Seeker can search for different Job Opportunities.
2. A Job Seeker can post his/her resume.
3. A Job Seeker can view a particular company or list of companies.
4. A Job Seeker can contact companies directly at the contacts provided by them.
5. Job Seeker can ask questions to the Recruiters about the jobs and recruitment process.

RECRUITER MODULE

This module provides functionalities for a Recruiter. Recruiters can post the vacancy details and can update them as and when necessary. Recruiters can search through applicants' resumes based on different criteria.

Facilities provided to Recruiter:

1. Recruiter can view Job Seeker with particular skill set.
2. Recruiter can upload Job Posts and documents that Job Seeker can view.
3. Recruiter can directly contact any Job Seeker at the contact provided by him/her.
4. Recruiter can answer all the queries of the Job Seeker regarding the jobs listed.

ADMIN MODULE

This module provides all the Administrator related functionalities. Administrator manages entire application and maintains the profiles of Job Seekers and Recruiters.

Facilities provided to Administrator:

1. Administrator can add new Companies.
2. Administrator can provide user-id and password to different users of the system.
3. Administrator can delete existing account.
4. Administrator can view or edit existing account.

REGISTRATION MODULE

Employee or Employer can register with valid details like contact details, experience details, profile details.

SEARCH MODULE

Employee Can Search job according to their interest. And also apply for that job. Employer search candidates for their requirements using keyword. Employer also can communicate with employee for their any other query or information via send message.

JOB POST

Employer post job for their organization. And include job vacancy, salary details, working hours, designation details, experienced details.

Code

Index.php

The screenshot shows a code editor interface with the following details:

- Explorer View:** Shows a tree structure of files and folders. The root folder is "JOB_PORTAL". Other files listed include assets, images, uploads, addcompany.php, addpost.php, applied-jobs.css, applied-jobs.php, apply-post.php, apply.php, back_style.css, back_style.scss, change-password.php, checkcompanylogo.php, checklogin.php, company-edit-profile.php, company-setting.php, company-view.php, create-job-post.php, create-job-posting.php, dashboard_candidate.php, dashboard_com.php, dashboard_cv.php, database.sql, db.php, edit-company.css, edit-company.php, edit-profile.css, edit-profile.php, emp-job.css, emp-job.png, flex-box-landing-page.css, index.html, index.php, job-applications.css, and job-details.css.
- Editor Area:** Displays the content of the index.php file. The code includes session handling, require_once statements for db.php and bootstrap files, and various CSS links for Bootstrap, Font Awesome, and custom styles. It also includes a viewport meta tag and a script tag for main.js.
- Bottom Status Bar:** Shows the following information: Line 9, Column 3, Spaces: 2, UTF-8, LF, PHP, Go Live, Prettier, and a refresh icon.

```

The screenshot shows a Microsoft Visual Studio Code (VS Code) interface. The left sidebar (Explorer) lists files under the 'JOB_PORTAL' folder, including 'create-job-post.php', 'dashboard_candidate.php', 'dashboard_company.php', 'dashboard.css', 'database.sql', 'db.php', 'edit-company.css', 'edit-company.php', 'edit-profile.css', 'edit-profile.php', 'emp-job.css', 'emp-job.png', 'flex-box-landing-page.css', 'index.html', 'index.php', 'job-applications.php', 'job-details.css', 'job-pagination.php', 'jobs.php', 'login-candidate.php', 'login-company.php', 'login.css', 'logout.php', 'modal.css', 'my-job-post.css', 'my-job-post.php', 'navbar.css', 'package-lock.json', 'page-login-company.php', 'page-login.html', 'page-login.php', 'page-profile.css', 'page-profile.php', 'README.md', and 'register-company.css'. The 'flex-box-landing-page.css' file is currently selected and open in the main editor area. The code in the editor is as follows:

```
index.php ● flex-box-landing-page.css ×
flex-box-landing-page.css > #mainbox
1  #mainbox{
2    position: relative;
3    font-family: calibri;
4    box-sizing: border-box;
5    justify-content: center;
6    display: flex;
7    flex-wrap: wrap;
8    margin-top: 35px;
9    height: 100px;
10   }
11  .card{
12    width: 250px;
13    border-radius: 5px;
14    background: #rgba(0, 0, 0, 0.3);
15    height: 60px;
16    padding-left: 10px;
17    margin: 10px;
18  }
19  .card:hover{
20    border-color: #rgba(0, 0, 0, 0.3);
21  }
22  .label {
23    color: white;
24    padding: 10px;
25    font-size: 13px;
26  }
27  input[type=text] {
28    background-color: #rgba(0, 0, 0, 0.3);
29    color: #272626;
30  }
31  input[type=text]:focus {
32    border: #rgba(0, 0, 0, 0.3);
33  }
34  select.input-sm {
35    width: 20px !important;
36    height: 27px !important;
37  }
38  .form-control {
39    width: 81% !important;
40  }
41  
```

The status bar at the bottom displays 'Ln 1, Col 1', 'Spaces: 2', 'UTF-8', 'LF', 'CSS', 'Go Live', 'Prettier', and icons for search, find, and refresh.

```
flex-box-landing-page.css
40    width: 200px !important;
41    height: 27px !important;
42 }
43 .form-control {
44     width: 81% !important;
45 }
46 }
47 .form-control:focus {

67     padding-left: 10px;
68     margin: 10px;
69 }
70 a {
71     color: #f5f5f5 !important;
72 }
73 }
74 }
75 }
76 }
77 }
```

The screenshot shows a code editor interface with the following details:

- EXPLORER** panel on the left displaying the project structure under **JOB_PORTAL**, including files like `create-job-post.php`, `dashboard_candidate.php`, `dashboard_company.php`, `database.sql`, `db.php`, `edit-company.css`, `edit-company.php`, `edit-profile.css`, `edit-profile.php`, `emp-job.css`, `emp-job.png`, `flex-box-landing-page.css`, `index.html`, `index.php`, `job-applications.php`, `job-details.css`, `job-pagination.php`, `jobs.php`, `login-candidate.php`, `login-company.php`, and `login.css`.
- index.php** is the active file in the **EDITOR** tab.
- login.css** is the active file in the **EDITOR** tab.
- login.css** content (partial):

```
1 .form-control {  
2     background-color: #5550 !important;  
3 }  
4 .auth-box {  
5     background-color: #333333 !important;  
6 }  
7 }  
8 .auth-box .right .overlay {  
9     background: #333333 !important;  
10    opacity: 0.7;  
11 }  
12 }  
13 .btn-primary {  
14     background-color: #rgb(51, 51, 51) !important;  
15     border-color: #rgb(240, 102, 22) !important;  
16 }  
17 }  
18 .btn-block {  
19     width: 40% !important;  
20 }  
21 }  
22 body {  
23     color: #ccc !important;  
24 }  
25 }  
26 a {  
27     color: #ccc !important;  
28 }  
29 }  
30 }  
31 a :hover{  
32     color: #rgb(240, 102, 22) !important;  
33 }  
34 }  
35 }
```

The status bar at the bottom shows: Ln 1, Col 1 Spaces: 4 UTF-8 LF CSS Go Live Prettier.

Output

The image displays two side-by-side registration banners. The left banner, associated with employers, features a dark background with a person in a suit. The text reads 'I'm an EMPLOYER' and 'Signed in companies are able to post new job offers, searching for candidate...'. It includes a blue 'REGISTER AS COMPANY' button. The right banner, associated with candidates, features a dark background with a person writing on a notepad. The text reads 'I'm an CANDIDATE' and 'Browse and search potential candidates for your job that match you, save job...'. It includes a green 'REGISTER AS CANDIDATE' button.

A screenshot of a web browser showing the 'Candidate Dashboard' page. The URL is 'localhost/127.0.0.1/job_portal123/edit-profile.php'. The page has a dark header with the title 'Candidate Dashboard'. On the left is a sidebar with navigation links: 'Dashboard', 'Profile', 'Edit Profile', 'Applied Jobs', 'Available Jobs', and 'Logout'. The main content area is a form for editing profile details. It includes fields for 'First Name' (samisha), 'Contact Number' (7020702294), 'Last Name' (ladkar), 'Highest Qualification' (B.Tech), 'Email address' (oleg@test.com), 'Stream' (Computer), 'Address' (E-302), 'Skills' (C++, Java), 'City' (kolkata), 'State' (Maharashtra), 'About Me' (jsdhd jdewj wdnwekjdwje wenwqkj), and an 'Upload/Change Resume' section with a 'Choose File' button. At the bottom of the form is an 'Update Profile' button. The footer of the page includes the copyright notice '© 2018 Job-Portal. All Rights Reserved.' and the system date and time '06:59 PM 09-04-2018'.

Download Resume

Mark Under Review **Reject Application**

The left sidebar contains the following navigation links:

- Dashboard
- Edit Profile
- Create Job
- My Job Posts
- Job Application
- Resumes
- Settings
- Logout

The bottom status bar shows the Windows taskbar with various pinned icons and the system tray indicating the date and time as 09-04-2018 at 07:00 PM.

The screenshot shows the 'Talent Database' section of a web application. On the left, a sidebar menu includes 'Dashboard', 'Edit Profile', 'Create Job', 'My Job Posts', 'Job Application', 'Resumes', 'Settings', and 'Logout'. The main content area has a dark header 'Talent Database' and a sub-header: 'In this section you can download resume of all candidates who applied to your job posts'. Below this is a table with the following data:

Candidate	Highest Qualification	Skills	City	State	Download Resume
samisha ladkar	B.Tech	C++ Java	kolkata	Maharashtra	Download

At the bottom right of the page is a copyright notice: '© 2018 Job-Portal. All Rights Reserved.' The system tray at the bottom shows the date and time as '09-04-2018 07:00 PM'.

The screenshot shows the 'Account Settings' section of the web application. The sidebar menu is identical to the previous screenshot. The main content area has a dark header 'Account Settings' and a sub-header: 'In this section you can change your name and account password'. It contains the following form fields:

<input type="text" value="Password"/>	<input type="text" value="Your Name (Full Name)"/>
<input type="text" value="Confirm Password"/>	<input type="button" value="Change Name"/>
<input type="button" value="Change Password"/>	

A message 'Password Mismatch!!' is displayed below the form. At the bottom, there is a checkbox labeled 'I Want To Deactivate My Account' and a red button labeled 'Deactivate My Account'.

At the bottom right of the page is a copyright notice: '© 2018 Job-Portal. All Rights Reserved.' The system tray at the bottom shows the date and time as '09-04-2018 07:00 PM'.
